

Church of Scientology Western U.S.
AMERICAN SAINT HILL ORGANIZATION DAY

September 8, 2010

YOU are important. Factually you are one of the closest to achieving the State of Clear, and then on to OT. Per our records, you are not currently receiving auditing or receiving very little auditing, which is costing you precious time and extending the number of hours you will need.

Also, and to be very direct, I hope that you are not involved in any out-ethics situation. If this is the case, we should get it sorted out. This is not meant as a make wrong. I just want to get you going on the Bridge and help you with whatever that takes.

When LRH released New Era Dianetics he said, **"It is interesting that when somebody has been skillfully mucking himself up for trillions and trillions of years that a NED Auditor can salvage him in under 100 hours!"**

We really take that to heart here - we take great pride in both the miracle wins our pcs get on NED and the dramatic speed with which they get through. It *does* routinely take under 100 hours to get through your NED here, just as LRH says. We also recently got another CCRD Auditor back from Flag training, as well as another Power auditor, and have been making 1 or 2 Clears every single week. In short, we *will* rapidly get you to Clear, whether you attain that state on New Era Dianetics or go the original route to Clear starting with Power Processing. The average time it takes someone to complete NED here at ASHO from the very beginning is three weeks of auditing.

We are offering you to come immediately for service at ASHO, and we will take whatever hours you have already at your Org with minimal or no additional donation required, and get you through your NED auditing and to Clear.

ARC,

Jarret Rible, Bridge Tracking Officer
